

We Need Your Help!

I woke up this morning knowing we will most likely take a direct hit from Hurricane Irma. This is familiar territory as we experienced the eye-wall of Hurricane Charlie and then the winds of Frances and Jeanne in 2004. We know our house can handle winds of at least 105mph and so we are offering shelter to those whose homes are not so sturdy. Likewise, officials are advising that people in our location shelter in place, but we are feeling both blessed and stressed as we prepare.

Please Pray:

- For physical and emotional energy today and tomorrow as we prepare.
- For eyes to see small repairs that make a big difference for stopping leaks.
- Grace and peace as we interact with each other and our neighbors. People are getting a bit edgy.
- For our elderly friends living in manufactured homes just west of our house to make wise decisions.

It would be totally awesome if by the end of Monday we had:

- No roof leaks
- Power
- Healthy elderly friends back in their own homes with no complications from the stress.

[Look on Facebook for updates](#). We'll post there if we can as we go along. ([Jo Anne on Facebook](#).)
